Hon. R. K. Hart will not be a  
candidate for the short term in  
Congress as reported.

Hon. T. H. Paynter has decided  
not to resign his seat in Congress  
until about the first of November.

Rolla Hart is in sympathy with  
"the people," because he is one of  
them. Vote for him if you want  
your interests taken care of.

Notwithstanding the fusion of  
Republicans, populists and A. P.  
A. in Tennessee the Democrats  
elected their State officers by more  
than 10,000 majority.

The Japanese Government has  
called on the Armour Packing  
Company, of Kansas City, for its  
price on half a million pounds of  
canned cornbeef for the Japanese  
army.

The Governor has issued a pro-  
clamation for a special election to  
be held on the regular November  
election day to choose a successor  
to Congressman Lisle in the Tenth  
district.

Rolla Hart is "one of the people"  
and a vote for him is a vote for the  
interests of the masses. His forte  
is not a rich father-in-law. He  
goes it on his own hook and has  
the ability to do so.

Sergeant-at-Arms Bright has in-  
vented a new kind of poker and  
calls it "Sensational poker." If he  
would have it become popular he  
must change its name at once.  
No gambler would take chances on  
a game by that name.

The River and Harbor Appropria-  
tion Bill, as reported from the  
conference to both houses, carries  
\$11,488,180, and increase of \$1,949,  
491 from the House bill. Compromises  
were reached on sixty-five of the  
Senate amendments, the remainder  
were accepted by the House.

Much difference of opinion as to  
the advisability of another bond  
issue is reported among Treasury  
officials at Washington. The Presi-  
dent and Secretary Carlisle how-  
ever, are of the opinion that the  
situation does not give any just  
cause for apprehension and predict  
a decided change for the better in  
the financial situation with the  
passage of the Tariff Bill.

The weekly reviews of trade re-  
port that, in spite of outgoing gold  
and sinking Treasury reserves, in-  
creased trouble in the coke regions,  
the tone of business and the out-  
look are more hopeful. Increased  
trade is predicted as soon as any  
definite action by Congress on the  
Tariff Bill is announced. South-  
ern crop prospects are reported ex-  
cellent.

The latest reports say that an  
agreement has been reached on the  
tariff by the conference committee.  
It provides for free iron ore, 40  
cents per ton on coal, and 40 per  
cent on sugar. It is thought the  
matter is about ended.

Notwithstanding the combina-  
tion of the Kolbits, Republicans,  
and other elements, backed by big  
money from Eastern Republicans  
who hoped to break the solid South,  
the Democrats won in Alabama  
last Monday by at least 25,000 ma-  
jority. The people are still down on  
McKinleyism and for tariff reform.

Rev. Dr. Griffith John, an Amer-  
ican missionary at Shanghai, says  
that the opium habits of the Chinese  
will tell against them in case of war.  
A native writer, speaking of the  
enormous depredation of opium  
from India to China says: "It is  
not only thus the foreigners ab-  
stract so many millions of our  
money, but the direful appearances  
seem to indicate a wish on their  
part to utterly root out and extir-  
pate us as a people."

A review of the work done so  
far by the Fifty-third Congress  
shows that so far as quantity is  
concerned, the body is not behind  
its predecessors in the legislation  
accomplished. The Federal elec-  
tion laws have been repealed, and  
some reforms have been instituted  
in various departments of the  
Government. Much new legisla-  
tion was enacted in the general  
appropriation bills, and a large  
number of separate measures of  
more or less importance have been  
passed.—C. J.

"Times are hard," may be heard  
on almost every street corner, and  
in fact wherever men are together.  
But look at the people upon the  
street; are they not as well dressed  
as in former years? Step upon the  
railroad train, and you will find  
the travel above the average, with  
no sign of hard times. Enter a  
city hotel of high grade, and it is  
full of people. Go into the church  
Sunday mornin', and you would not  
suspect hard times from the ap-  
pearance of the people. Let the  
hard times cry cease until the  
people show some signs, in their  
dress, travel, modes of living,  
and the like, that times are hard.  
It is a sin to cry hard times while  
dressed in silks and fine linen.—

### CAT RIDGE, KY.

EDITOR BIG SANDY NEWS.  
In my last I asserted that the  
farmer paid the miner for his labor,  
as well as the tax, (75c per ton)  
the freight and the operators profit.  
Allow me to say in addition that  
the farmer pays absolutely all taxes  
laid under the McKinley law, as  
well as the operating expense, and  
profits of all the manufactories of  
this country, (unless perchance  
the product should be sold to a  
foreign country.)

To illustrate, we will take the  
coal operator, as your readers are  
more familiar with this product  
than any other. I shall especially  
allude to the owner's wages, but my  
readers, do not forget that the tax  
is the item of expense objected too.

Who pays the miner for his la-  
bor? Who the operator? This la-  
bor as well as the tax is a part  
of the cost of this coal, and governs  
in most cases the price. This coal  
is sold, say to the Illinois Steel Co.  
Then the Illinois Steel Co. pays  
back or rather pays the miner's  
wages, as it is a part of the cost of  
coal. This steel company uses  
coal in the manufacture of steel  
billet, which are sold to a nail  
mill. The cost of the coal is calcu-  
lated in the cost and price of the  
steel. Therefore the miners wages  
are paid by the nail company. The  
cost of the steel is estimated in the  
cost of the nails, which is sold to  
the wholesale merchant, who  
pays the coal digger's wages. The  
country merchant sells to the farm-  
er, who then and there pays not only  
the miner for his labor, but the  
full expense of this coal, as well as  
the other multiplied taxes under  
the McKinley law. Don't get lost  
in the delusion that the man who  
uses these nails does not pay the  
tax. Not a bit of it. Suppose  
some laborer who is working in the  
manufacture of an entirely different  
product buys a few kegs of these  
nails. He pays for these nails out  
of his wages that goes to make up  
the cost of the product he is labor-  
ing to produce, and works its way  
through to the farmer just the  
same as the nails have done. And  
this my friends holds good on any  
article it matters not what. If you  
will take a little pains to figure out  
you will find that the farmer pays  
all the expense of our National  
Government. All the labor is paid  
by the farmer. In fact the farm-  
ers pays for everything from the  
news boy to the Union Pacific Rail-  
road. But as a farmer I am not  
objecting to having to pay these la-  
bor bills, for here is the line of ex-  
change. But the injustice comes  
in the extraordinary tribute we are  
forced under law to pay for this  
privilege, made so by the McKin-  
ley tax law. Besides, every item of  
expense is figured in the cost of a  
manufactured article, and thus placed  
on the market. While the value of  
the product of the farm is fixed  
without reference to cost of the  
product. We are often asked why  
we do not keep an expense account  
upon our farms. Why my friend  
what would prove the use, as we  
have not a word to say in fixing  
the price of our products. But the  
favored class fix the value of their  
products and ours too. The men  
who have in past years succeeded  
in getting Congress to lay an exor-  
bitant tax upon the farmers of the  
country for their benefit, say to  
us farmers, well now we want your  
wheat and will pay you for it just  
what you can get in London less  
the freight. London merchants  
will pay you same price they can  
buy wheat in India for, a country  
that can raise wheat without the  
curses of a McKinley tax law. So  
you can see my friends where the  
value of our products is made. So  
we are cursed as were the Jews who  
at one time were all farmers. They  
were by the same process driven  
from farming as will the American  
farmer under the present system be  
driven to tenants and laborers.

We are forced under pretext of  
law to pay tribute to a certain class  
and then have our products valued  
by the product of a county not so  
taxed. COAL BLAST.

The success of Mrs. Annie Deam, of  
McKeesport, Pennsylvania, in the treat-  
ment of diarrhoea in her children will  
undoubtedly be of interest to many  
mothers. She says: "I spent several  
weeks in Johnston, Pa., after the great  
flood, on account of my husband being  
employed there. We had several chil-  
dren with us, two of whom took di-  
arrhoea very badly. I got some of Cham-  
berlain's Colic, Cholera and Diarrhoea  
Remedy from Rev. Mr. Chapman. It  
cured both of them. I knew of several  
other cases where it was equally suc-  
cessful. I think it cannot be excelled  
and cheerfully recommend it." 25 and  
50 cent bottles for sale by A. M. Hughes.

### HERE AND THERE.

The late rains have revived things  
up, but too late to do the corn much  
good. Wheat is being threshed  
out, and is turning out beyond ex-  
pectations.

There is a good deal of sickness  
throughout the country, and many  
deaths have occurred.

The saw and grist mill at Glen-  
wood is in full blast and is a great  
help to the country.

The farmers are very much dis-  
couraged about the shortness of the  
corn crop, as there will not be much  
over one fourth of a crop.

A little child of Mr. & Mrs. Thom-  
as Rice died last week, and was  
taken to the tunnel where Mrs. H's  
parents live, for burial.

Lena Riffe died last Saturday of  
what supposed to be scarlet fever.  
She was a highly respected young  
lady and had many friends to  
mourn her loss.

Schools have all been taken  
up as far as we have heard and we  
hope good teachers has been chosen  
in each district.

There was preaching at Sand  
Hill last Sunday by the Rev. Ben-  
nett, of the Campbell Church.  
There was a large attentive crowd  
present.

A Mr. Jackson, of Seed Tick, has  
control of the school at Glenwood,  
and has the reputation of being a  
number one teacher. This we are  
glad of, for there was a great deal  
of opposition at the beginning of  
the school.

In church a man a nap will take,  
Regardless of the good expounded;  
But all the women keep awake  
To note the dresses round her.

John Rogers, of Denton, and  
Mary Maguire, of Glenwood, had a  
little domestic trouble with the old  
folks and they concluded to run off,  
and so they did and have not been  
heard of for several days.

The farmers are beginning to  
mill their wheat.

Henry Jenkins, of the Glancy  
Fork, has done all the threshing  
through this section, and has  
done good work, and has obliged  
the people by waiting till they sell  
their wheat to pay their threshing.

While a game of base ball was in  
progress Saturday just above Den-  
ton, two of the players had the mis-  
fortune to get a finger broke which  
will likely cause amputating.

Since man first met with tempta-  
tion, and fell into error and sin  
some hypocrite worse than the sin-  
ner, stood ready to sneer and to  
grin.

We are glad to note the compli-  
ment given by J. K. Greynock, of  
East Fork concerning the home  
guards at Glenwood during the  
troublesome nights during the  
strike. We were one of the party,  
and as to their bravery, we have no  
doubt but what one could have taken  
a peggingawl with the point  
broken off and put the whole crowd  
to flight.

Wesley Webb has engaged the  
services of Will Cooksey as miller  
for the new mill. Mr. C. is an old  
timer at the business and the peo-  
ple need have no fear of getting a  
bad quality of meal.

Thomas Rice and wife visited  
Mrs. Rice's parents at Denton re-  
cently and during the night while  
their horses were in the pasture,  
one that was borrowed, was killed  
by a train. Like a true gentleman  
Mr. Rice gave his valued mare in  
place.

Bad Boy of Oliveville may rest as-  
sured that hereafter he will have  
the pleasure of reading Jack the  
Ripper's letters without difficulty,  
as he has somewhat improved in  
his writings since the last teachers'  
examination.

Let us hear from Bad Boy  
often.

Some hard-hearted sinner has a  
current report that as long as there  
were meetings going on through-  
out this section the drought would  
continue, and not till they stopped  
would we have rain. But as bad as  
this may appear, the report was  
about true in this instance.

They are having a little trouble  
over the school at Slick Rock. The  
teacher had engaged the school,  
but hadn't a first-class certificate,  
and we are told that the school  
will not begin until after the next  
examination.

George Criley is scouring the  
whole country buying cattle and  
hogs. Of the latter he gets but  
few, but George pays good prices  
for all he gets. HAMBLER.

my life was a burden. I had been  
sick for twenty years. I realize  
that The Electropoise is a propelling  
force in nature's store house  
for suffering humanity. It is na-  
ture's remedy, whose healing effect

I purchased a bottle and received almost

## LOUISA AND HUNTINGTON.

### A Victory to the Credit of Each.

The Louisa base ball club went to Huntington Wednesday and lost a game by a score of 10 to 1. It was a very close game until the ninth inning, when Huntington made six runs (principally on errors) after two of their men were out. For several innings the score stood 3 and 3. Louisa was really entitled to the game but lost it through its own mistakes.

Will Billups, who plays a great game at second base and who has never played elsewhere in several seasons, played at short stop and was not very much at home. Bromley played second base instead of third, but he did it well. Homer Davidson played first base and did it so wretchedly that the loss of the game is charged to him by those who saw it. He is able to play well, but he certainly disposed of this game.

Welch did not play. Bob Billups pitched a fine game, and with reasonably good support would have won even a better game than Huntington put up. Smith, of Ironton, pitched for Huntington and Blackwell, of the same place, played first base. Bromley and Than Baker did the heaviest battling for Louisa.

### LOUISA 12, HUNTINGTON 6.

Yesterday the two clubs went to Catlettsburg, where the Fair is in progress, and played, the score as shown above. Bob Billups pitched in this game also and did magnificent work. His pitching is highly praised by those who witnessed it. Bromley did not play on account of a slight injury received the day before. Harris played one of his old time games, and in fact all the boys did well. Huntington's best pitcher, Taylor, was in the box.

The Louisa team will play at Huntington to-day and the Huntington club will come to Louisa for a game Saturday.

Bob Billups and Bromley came home yesterday evening, but will be ready for the Saturday game. Smith of Ironton, will pitch for Louisa to-day.

The Louisa base ball club had a game arranged with Huntington Monday, but a definite understanding was not reached in time to have them come. The date was then changed to Tuesday, but the club failed to show up. They asked Louisa to go to Huntington Wednesday and the boys went. The result is told elsewhere.

## \$40,000 FOR THE DAM.

### Our Appropriation Rides Through Congress.

Our people were much elated when the addition of \$12,000 was made by the Senate to the appropriation for the lock and dam at this place, but the fear that the increase might be cut off by the conference committee caused some anxiety. The suspense was ended Monday by the river and harbor bill finally passing both houses of Congress with our increase sticking to it. No fear of a veto is entertained. It is expected that work on the dam will begin about the 20th inst., with a large force of men.

Our Representatives have done faithful work in this instance and our people are very grateful to them.

With reasonably favorable weather the foundation of the dam will be completed this year, ready for fitting the dam proper.

LATER:—It is not entirely certain that the President will sign the river and harbor bill. If he finds any evidence of jobbery in any of the items he will not sign it.

It is stated that Riffe, the Lawrence county murderer is now in Morgan County, and it is expected that his capture is not very far removed. Riffe is pursued by friends of his victim and if captured by them may never have a trial.—Ashland News.

"The canning factory, with a capacity of 2,300 cans a day, is now complete, and Superintendent William Chesterfield, who was here Friday, tells us that it will employ 135 hands, ninety women forty-five men, whose pay will average 80 cents daily. The company has 287 acres of tomatoes from which a yield of 80,000 bushels is expected. The crops heavy and is ripening well. The price established is 20 cents a bushel of 60 pounds, and a great many farmers in this section have turned their attention to raising them. An acre will yield 250 bushels, which will bring \$50, a much better amount than can be gotten from wheat or corn. The establishment will prove a great blessing to the people of this section."

### As to Gates.

[Affectionately inscribed to H. G. C.]  
With aspirations strong and pure  
We read of peevy "Gates A-jar";  
And hope when ends life's fitful dream  
For us they'll have no blundering bar.  
We read in Moore's sweet Lalla Rookh  
Where Fort stood at Heaven's gate,  
And wept to think her recent race  
Should e'er have lost that happy state.  
And there's the "gate" the gray mare goes—  
Ah, swift and sure her old feet fly;  
From mouth to head of Sandy's stream  
She carries me through wet and dry.

But Heaven's gates and gates ajar  
For me have lost their zest of late,  
I only ask that, live or die,  
Mine eyes may rest on Applegate.

We found the above lines in a well-beaten patch on Madison street a few days ago.
